SPFC IMPACT

We Help FRESH Pantry Review

"God bless SPFC and helping people. I am currently in college; an engineering student. I was affected by Milton as a first responder and have been struggling financially, feeling very alone, just hoping I can pay my bills and the damages to my home. My home flooded completely; devastating me and my dog, Tesla.

Now you might think, an engineer, wow. She is going to make 6 figures. How can she be struggling? Well, that's true.. one day. I'm dead broke right now, paying for college, paying for a home, damages, and feeding myself and a dog. One day, I will have money, and I will return the favor.

Although my situation isn't nearly as bad as some, I am blessed to have help and food a few times a month. It takes the stress off my grocery bill somewhat, which usually is my second highest bill besides rent. Thank you!!! One day I will return the favor and I am beyond grateful." - **G Herr**
